

AERIAL WORK PLATFORMS - ANSI/AWP (Safety)

Purpose: To help the operator of aerial work platforms understand OSHA / ANSI's minimum safety requirements to operate aerial work platforms (booms and scissor lifts).

The training covers OSHA 1926 subparts L (scaffolds), ANSI A92.2-1990, A92.3-1990, A92.5-1992, A92.6-1999, A92.7-1990, A92.8-1993 and A92.9-1993.

Length of course: 5 hours. (10 Credits)

Card Expiration: 4 years.

NOTE: This is an awareness course to help the operator of aerial work platform scaffolding understand OSHA / ANSI's minimum safety requirements for operators. It is not a certification course.
